Ms. Lynda J. Brooks,  
President,  
The Human Ecology Foundation of Canada,  
97 Village Green,  
KANATA, Ontario.  
K2L 1G8

Dear Ms. Brooks:

Thank you for your letter received on February 20, 1986, concerning the Thomson Report on Environmental Hypersensitivity Disorders, prepared for the Ontario Ministry of Health.

I would be pleased to comment on this report after officials of my Department have received it and have had the opportunity to review it. As you are aware, environmental hypersensitivity is a relatively new phenomenon in our society and a report such as Judge Thomson's is likely to provide a welcome addition to our knowledge on this subject.

Yours sincerely,

A. J. Liston, Ph.D.,  
Assistant Deputy Minister

Canada
